

Supervisors Report *Jim MacArthur*

*I have scheduled harassment training for Wednesday October 16th.

*Following the August Town Board meeting, I reached out to the County Highway Department regarding Stop Lines. I was told that when a County Road intersects a State Road, such items become the jurisdiction of the State. Stop lines are included in this. Even though they would be painted on the County Road, the State has the say so on if they are allowed to be painted. The County is reaching out to the state to get permission for this.

*Following the Special Board meeting, I reached out to our current bookkeeper. He has agreed to help move our financial records over to our new accounting firm and payroll firm. I am hopeful for an easy transition.

*I continue to work with my Budget Officer Steve Olyha in meeting with the various town departments in regards to their budget needs.

*I will be meeting with the Rescue Squad in the next few weeks to talk about their budget for 2025.
