

Ancram Highway Dept Monthly Report

Oct Report

Diesel Fuel used: 215 gallons

Gasoline used: 475 gallons

*We did some patching with our paver on Woods Ext with assistance from Gallatin and did 3 minor jobs for them using our paver.

*The speed limit requests have been submitted to the county

* We have begun getting our trucks and equipment ready for the upcoming winter season.

*Rental mower was delivered on 9/17 we have mostly completed the mowing and will utilize the tractor on our leaf blower until it's on returned 10/15. Hopefully the mower installation will be complete on our tractor and it can make the return trip at that time.

*New plow truck update still scheduled for a 11/19 build date. The dealer assures me that the truck will be built before years end.

*I attended NYS Assn Conference and the various sessions touched on many different topics such as the states electric vehicle mandate, finding and retaining qualified employees, CHIPS guidelines update and pavement preservation among others.

Respectfully submitted
James Miller Highway Superintendent
