

Supervisors Report *Jim MacArthur*

*Our first harassment training was held Wednesday at the town hall at 9am. I have scheduled November 16, 2024 at 9am as an additional training day. This is a Saturday for those who work during the week.

*Jim Miller (highway superintendent), Steve Olyha (budget manager) and myself met with the insurance company regarding the health insurance for the highway department. There are two options. One with a co-payment for the employees and one without. The employees are looking over the two options.

*I met with the rescue squad. Their budget for Ancram will increase 4.71%. This will be an increase from \$133,712.00 to \$140,014.00. This is a chargeback paid by the county.

*I have worked this month along with our Budget Officer and Highway Superintendent at hammering out the 2025 Ancram Budget.

*On the County Level we continue to work on the 2025 County Budget.
