

Town Clerk Report

I collected a total of \$150.00 in fees in September. These were for 15 certified copies.

I have spent the majority of the last month working through the new accountant transition. This has been hours of scanning and downloading documents, phone and zoom meetings with people and hunting down forms. I am please that the transition has gone as smoothly as it has. We have had one payroll. This will be the first board meeting with the new accountant cutting the checks.

I assisted our Budget Officer and the Town Supervisor with the 2025 budget, explaining what is paid from which budget lines, amounts spent this year and estimating expenditures for 2025.
